

RAHUL SUNIL

Houston, TX | 502-445-5989 | rahulsunilkwt147@gmail.com | [LinkedIn: rahul-sunil-UH](#) | [Github: rahulkwt](#) | Open to Relocation

EDUCATION

B.S Computer Science
University of Houston, Houston, TX
College of Natural Sciences and Mathematics
Relevant coursework: Data Structures, Algorithms, Database systems, Discrete Mathematics, Statistics

Expected Graduation - **Dec 2026**

TECHNICAL SKILLS

Programming Languages: Python, Java, C++, JavaScript, HTML/CSS
Packages/Libraries: React.js, Node.js, Tailwind, Bootstrap, Sass
Database: MySQL
Tools: GitHub, VS Code, Eclipse, Adobe XD, n8n

PROJECTS

Baymax – AI Academic Co-Pilot
Developed an AI-powered student assistant to help users solve problems, summarize notes, and automate academic workflows

Fall 2025

- Built an AI academic assistant integrating LLM-based question answering and step-by-step problem explanations
- Designed automated workflows using **n8n** for email notifications and updating the calendar using syllabus
- Secured **1st Place** among **10+** teams after final presentation and live demo

Medical-Clinic Full Stack Web Application
Developed a full-stack clinic management system supporting multiple user roles.

Spring 2024

- Engineered a full-stack clinic system with 5 roles, dashboards, and automated appointment and patient notifications
- Designed and implemented a **MySQL** database with **15+** tables and a RESTful **Node.js** backend with **API** endpoints
- Developed a responsive **React.js** frontend styled with Tailwind CSS, integrating backend functionality seamlessly
- Collaborated with a 4-member team using **GitHub** for version control and for development setup

Liquor Store Website
Collaborated with a team of developers to create a website for a liquor store.

Fall 2024

- Engineered a 5-page website with product listings and search using **React.js**, **HTML**, **CSS**, and **WordPress**
- Streamlined project milestones via **GitHub** and performed QA checks to ensure accurate product displays
- Delivered a management guide for updating products and pricing, boosting customer engagement by 20%

EXPERIENCE

PixelFlames | Data & Website Development Intern – U.A.E
Audited product datasets, added 500+ products and 30 pages in **WordPress**, ensuring accuracy and consistency
Customized front-end pages using **HTML**, **CSS**, and **JavaScript** for payment form validations with over 700+ transactions
Collaborated with designers and QA developers to maintain website quality and optimize product displays

Jun 2023 – Aug 2023

Raising Cane's | Crew Trainer – Missouri City, TX
Assisted cashiers with transactions, ensuring accuracy and efficiency while serving up to **300** customers per hour
Led training for **80+** new team members on operations, customer service and food safety
Addressed **40+** member inquiries daily, resulting in a **20%** improvement in overall member satisfaction ratings

Jan 2024 – Present

EXTRACURRICULAR

SC Sports and Arts Club
Youth Officer of **250** members acting as a liaison between the youth members and leadership

Aug 2023 – Present

- Led a 6-member marketing team to manage events and social media, increasing attendance 40% from 2023 to 2025
