Tools: GitHub, VS Code, Eclipse, Adobe XD, n8n

PROJECTS

Baymax – AI Academic Co-Pilot

Fall 2025

Developed an AI-powered assistant to solve problems, summarize notes, and automate academic workflows

- Built an AI academic assistant integrating LLM-based question answering and step-by-step problem explanations
- Designed automated workflows using **n8n** for email notifications and updating the calendar using syllabus
- Secured **1st Place** among **10+** teams after final presentation and live demo

Medical-Clinic Full Stack Web Application

Spring 2024

Developed a full-stack clinic management system supporting multiple user roles, appointment and patient notifications.

- Designed and implemented a **MySQL** database with **15+** tables and a RESTful **Node.js** backend with **API** endpoints
- Developed a responsive **React.js** frontend styled with Tailwind CSS, integrating backend functionality seamlessly
- Collaborated with a 4-member team using **GitHub** for version control and for development setup

Liquor Store Website

Fall 2024

Collaborated with a team of developers to create a website for a liquor store.

- Engineered a 5-page website with product listings and search using **React.js**, **HTML**, **CSS**, and **WordPress**
- Streamlined project milestones via **GitHub** and performed QA checks to ensure accurate product displays
- Delivered a management guide for updating products and pricing, boosting customer engagement by 20%

EXPERIENCE

OFS Inventory, LLC | Associate Consultant – Houston, TX

Jun 2026 – Present

- Conduct full-scale inventory audits for manufacturing/industrial clients, reconciling **8,000+** SKUs at **97%+** accuracy
- Capture and validate asset data via barcode scanners, RFID, and mobile apps across **6–8** person on-site teams
- Perform discrepancy analysis in Excel (**VLOOKUP**) and build **Power BI** dashboards for client review

PixelFlames | Data & Website Development Intern – U.A.E

Jun 2023 – Aug 2023

- Audited product datasets, added 500+ products and 30 pages in **WordPress**, ensuring accuracy and consistency
- Customized front-end pages using **HTML**, **CSS**, and **JavaScript** for payment form validations with over 700+ transactions
- Collaborated with designers and QA developers to maintain website quality and optimize product displays

Raising Cane’s | Crew Trainer – Missouri City, TX

Jan 2024 – Jan 2026

- Assisted cashiers with transactions, ensuring accuracy and efficiency while serving up to **300** customers per hour
- Led training for **80+** new team members on operations, customer service and food safety
- Addressed **40+** member inquiries daily, resulting in a **20%** improvement in overall member satisfaction ratings

EXTRACURRICULAR

SC Sports and Arts Club

Aug 2023 – Present

Youth Officer of **250** members acting as a liaison between the youth members and leadership

- Led a 6-member marketing team to manage events and social media, increasing attendance **40%** each year
